

# Convert to Euro

This function is available under **Accounts/Year End/Convert to Euro**. This function was used for converting the German Marks to €.

A screenshot of a software dialog box titled "Convert to EUR". The dialog has a green title bar with a close button (X) in the top right corner. The main area is light gray and contains several sections. At the top left, there is a label "Factor:" followed by a text input field containing the value "1,955830". Below this input is the text "(the value of 1 EUR in the old currency)". Below the factor section is a list of seven items, each with a checkbox. The first five items are checked: "Article (normal)", "Accounts (normal)", "Vouchers (norma", "Cash register (normal)", and "Cash book (normal)". The last two items are unchecked: "Cash register archive (usually not)", "Timetable (important: only once!)", and "Card values (important: only once!)". Below the list is the label "Payment method for the old currency:". Under this label are two text input fields: "Abbreviation:" with the value "dm" and "Description:" with the value "Cash payment DM". On the right side of the dialog, there are two buttons: a green "OK" button with a checkmark icon and a gray "Cancel" button with a red X icon.
